

# Protect Your Pipes and Your Wallet!

**BE CAREFUL WHAT GOES DOWN THE DRAIN**

**Baby wipes, dental floss, salad dressing and bacon grease.** What do they all have in common?

These items **can block your pipes** if you put them down the sink or toilet.

Blocked pipes are **big trouble**. They can burst or back up, leading to **costly flooding** in your home or business.

A friendly reminder from your municipality in partnership with:

# How to protect your pipes

## THE 3 Ps

The **only things that go down the toilet** are pee, poo and (toilet) paper. No exceptions.

## FATS, OILS & GREASE

Also known as FOG, and a **major cause of pipe blockages**. Examples:

- » Sauces, gravies
- » Salad dressing
- » Butter, margarine
- » Sandwich spreads
- » Meat fat
- » Milk, cream
- » Cooking oils

**Keep drains clear:** After cooking, **allow FOG to cool and harden**. Scrape hardened FOG into the **garbage or green bin** as directed by your municipality.

---

**Contact your municipality if you have any questions.**

**Thanks for your cooperation!**
