

9.f.3

SOLID WASTE LANDFILL CLOSURE & POST-CLOSURE LIABILITY

INFORMATION

The municipality was asked by its auditor to update its plan for the Solid Waste Landfill Closure & Post Closure Liability.

The report which estimated the costs associated with liabilities for closure and post-closure care of operating the Trillium Site and Limerick Site was last completed in 2008 by Dillon Consulting. Dillon has been contacted and have provided a cost estimate of \$3,800.00 per site.

The Work Plan will include the following five tasks;

- ❖ Collection and Review of Relevant Information, C of A's, landfill closure plan, design and operation reports, annual monitoring and operational reports, estimates of remaining life, and any other applicable information.
- ❖ Estimate for Closure & Post-Closure Expenditures, estimated in 2015 dollars based on information provided in task 1, current practice and technology, predicted closure date and length of post-closure period, current environmental regulations.
- ❖ Change in the Liability and Annual Expenditure, estimated total expenditure based on cumulative capacity used and total estimated capacity
- ❖ Additional information Required, closure and post-closure care requirements, post closure activities and source documents
- ❖ Draft and Final Report, draft report will be provided for the municipality to comment before final copy is completed.

Submitted By: Jaime Francisco for September 16, 2015 Council Meeting
