

What is a Consent?

Permission or consent is generally required to divide land into smaller parcels. Typical types of consents include the creation of a new lot, adding land to a neighbouring lot, creating a right-of-way, and entering into a lease over a part of a property for more than 21 years. Applications are reviewed to determine if they are consistent with Provincial policy, if they conform to Official Plan policies, if they comply with the requirements within South-west Middlesex's Zoning By-law, and if the proposed use or development is suitable for the site and compatible with adjacent land uses. Additional considerations taken into account include the availability of municipal servicing, availability of adequate vehicular access, grading and drainage, and potential environmental impacts.

What is the Consent Process?
